FOR IMMEDIATE RELEASE

STANDEX REPORTS THIRD-QUARTER FISCAL 2014 FINANCIAL RESULTS

Reports \$1.04 in EPS from Continuing Operations; \$0.93 in Non-GAAP EPS from Continuing Operations
All Five Segments Report Year-over-Year Growth in Revenue and Operating Income

SALEM, NH – May 2, 2014 . . . Standex International Corporation (**NYSE: SXI**) today reported financial results for the third quarter of fiscal year 2014 ended March 31, 2014.

Third Quarter Fiscal 2014 Results from Continuing Operations

- Net sales increased 7.7% to \$178.8 million from \$166.0 million in the third quarter of fiscal 2013.
- Income from operations was \$14.2 million, compared with \$11.7 million in the third quarter of fiscal 2013. Operating income for the third quarter of fiscal 2014 included, pre-tax, \$1.4 million of restructuring charges and \$1.4 million of non-recurring management transition expenses. The third quarter of fiscal 2013 included, pre-tax, \$1.1 million of restructuring charges, a legal settlement expense of \$2.8 million, and a \$2.3 million benefit relating to the discontinuation of a retiree life insurance benefit. Excluding these items from both periods, the Company reported non-GAAP third-quarter fiscal 2014 operating income of \$17.0 million, compared with \$13.3 million in the year-earlier quarter.
- Net income from continuing operations was \$13.2 million, or \$1.04 per diluted share, including, after tax, \$1.0 million of restructuring charges, \$1.0 million of non-recurring management transition expenses, and an insurance proceeds gain of \$3.4 million. This compares with third quarter of fiscal 2013 net income from continuing operations of \$9.6 million, or \$.76 per diluted share, including \$0.8 million of tax-effected restructuring charges, a \$2.0 million expense related to a legal settlement, a \$1.6 million life insurance benefit and a \$1.4 million benefit from discrete tax items. Excluding the aforementioned items from both periods, non-GAAP net income from continuing operations was \$11.8 million, or \$0.93 per diluted share, compared with \$9.4 million, or \$0.74 per diluted share, in the third quarter of fiscal 2013.
- EBITDA (earnings before interest, income taxes, depreciation and amortization) was \$21.4 million, compared with \$15.4 million in the third quarter of fiscal 2013. Excluding the previously mentioned items from both periods, EBITDA for the third quarter of fiscal 2014 was \$20.8 million, compared with \$17.0 million in the year-earlier quarter.
- Net working capital (defined as accounts receivable plus inventories less accounts payable) was \$131.0 million at the end of the third quarter of fiscal 2014, compared with \$138.3 million a year earlier. Working capital turns were 5.5 for the third quarter of fiscal 2014, compared with 4.8 turns for the year-earlier quarter.
- The Company closed the quarter with net cash of \$12.4 million, compared with net debt of \$40.7 million at March 31, 2013.

A reconciliation of net income, earnings per share and net income from continuing operations from reported GAAP amounts to non-GAAP amounts is included later in this release.

Management Comments

"We reported record results in the third quarter with all five operating groups reporting year-over-year sales and operating income growth," said David Dunbar, Standex President and CEO. "Our sales were up 7.7% in the quarter, including 7.2% organic growth, with four of our five groups generating double-digit growth. We also performed well from a bottom-line perspective, recording a 25.7% increase in non-GAAP EPS to \$0.93. We generated \$15.6 million in cash from operating activities and \$7.3 million in free operating cash flow, ending the quarter with a net cash position of \$12.4 million on the balance sheet. Our successful investments in organic growth initiatives, including new product and program development, helped to drive growth this quarter."

Segment Review

Food Service Equipment Group sales increased 2.6% year-over-year. Operating income was up 35.6% as a result of volume leverage as well as an easier year-over-year comparison due to non-recurring expenses in the third quarter of last fiscal year.

"On the refrigerated side of the business, we continued to see strong growth in the dollar store market, where we have been successful with our new line of value-engineered, upright, merchandising cabinets, as well as in the dealer channel," added Dunbar. "This growth was partially offset by weakness in the quick service restaurant market as a result of weather-related store opening delays and continuing softness at retail drug stores. In cooking solutions, we reported strong sales in the US grocery store market, and the project pipeline continues to improve. Sales to the dealer channel and the convenience store market also provided year-over-year gains in the quarter."

"We continue to focus on improving our bottom-line performance at the Food Service Equipment Group," Dunbar said. "The consolidation of our Cheyenne, Wyoming cooking solutions facility into Nogales, Mexico is on track to be completed by the end of the fiscal year, and we continue to expect to generate \$4 million in annual cost savings beginning in fiscal 2015. ¹"

Engraving Group sales increased 14.5% year-over-year, and operating income grew 77%.

"Our Engraving Group's results were driven by another record performance by our Mold-Tech business, reflecting its strong competitive position coupled with a high number of new automotive model launches worldwide," said Dunbar. "Although we continued to see softness in the roll, plate and machinery business, we expect that the strong automotive model launches globally will continue to have a positive effect on our results in the fourth quarter of fiscal 2014. ¹"

Engineering Technologies Group sales increased 14.1% year-over-year, and operating income rose 25.9%.

"The Engineering Technologies Group's third-quarter performance was driven by strong order trends across substantially all of our end markets, reflecting a robust demand environment," said Dunbar. "We are particularly encouraged by the group's prospects in the aviation market. ¹ During the third quarter we received a life of program award from Senior Aerospace related to the Airbus A320 NEO, one of the largest-selling commercial aircrafts in the world. This contract marks our second major contract win on large-body, single-aisle, commercial aircraft. In the Space segment, our Spincraft unit received a multiyear contract that begins in 2014 from Boeing and Lockheed Martin's United Launch Alliance joint venture related to the Atlas V and Delta IV launch vehicle programs."

Electronics Products Group sales were up 10.4% year-over-year, with operating income increasing 10.5%.

"Our Electronics Products Group reported record sales and profitability due to new sensor program launches in the white goods, transportation and recreation markets, from our combined StandexMeder product lines," Dunbar said. "The group is moving up the value chain from supplying components to designing and delivering sensor assemblies and OEM solutions. We have a solid pipeline of customer programs in Electronics that we expect to launch during the rest of this fiscal year and into the next. ¹"

"In addition to focusing on the top line, the Electronics Products Group is taking aggressive steps to leverage sales growth into improved profitability," said Dunbar. "We are executing on a robust set of lean enterprise, cost-reduction initiatives that should benefit the business in the future. ¹"

The Hydraulics Products Group reported a 17.8% year-over-year sales increase, while operating income rose 2.8%.

"Our strong Hydraulics group sales were primarily driven by greater penetration into the refuse market, while operating income was moderated because of competitive pressures in new markets and investments to win new business," Dunbar said. "Our focus on diversifying our Hydraulics business into the refuse market is going well. During the third quarter we also benefited from a continued recovery in our traditional North American dump truck market, due to improvements in the overall construction industry."

Business Outlook

"We believe that market conditions and underlying demand trends are favorable for Standex's future organic growth, ¹" said Dunbar. "Our backlog was up in the third quarter on a year-over-year basis in all of our businesses, and we are seeing healthy customer activity. Looking forward, we plan to make the right organic and acquisition investments to drive growth. ¹ On both fronts we have had recent successes. Investments in new products and programs have resulted in solid organic sales, and the success of our Metal Spinners (Spincraft UK) and Meder acquisitions has enabled us to enter new markets, penetrate new customers with new products, and generate accretive growth. Looking forward, it is our mission to leverage our strong balance sheet to create shareholder value. ¹"

Conference Call Details

Standex will host a conference call for investors today, May 2, 2014 at 10:00 a.m. ET. On the call, David Dunbar, President and CEO, and Thomas DeByle, CFO, will review the Company's financial results and business and operating highlights. Investors interested in listening to the webcast should log on to the "Investor Relations" section of Standex's website, located at www.standex.com. The Company's slide show accompanying the webcast audio also can be accessed via its website. To listen to the playback, please dial (800) 585-8367 in the U.S. or (404) 537-3406 internationally; the passcode is 30435270. The replay also can be accessed in the "Investor Relations" section of the Company's website, located at www.standex.com.

Use of Non-GAAP Financial Measures

EBITDA, which is "Earnings Before Interest, Taxes, Depreciation and Amortization," non-GAAP income from operations, non-GAAP net income from continuing operations and free cash flow are non-GAAP financial measures and are intended to serve as a complement to results provided in accordance with accounting principles generally accepted in the United States. Standex believes that such information provides an additional measurement and consistent historical comparison of the Company's performance. A reconciliation of the non-GAAP financial measures to the most directly comparable GAAP measures is available in this news release.

About Standex

Standex International Corporation is a multi-industry manufacturer in five broad business segments: Food Service Equipment Group, Engineering Technologies Group, Engraving Group, Electronics Products Group, and Hydraulics Products Group with operations in the United States, Europe, Canada, Australia, Singapore, Mexico, Brazil, Argentina, Turkey, South Africa, India and China. For additional information, visit the Company's website at <http://standex.com/>.

¹ Safe Harbor Language

Statements in this news release include, or may be based upon, management's current expectations, estimates and/or projections about Standex's markets and industries. These statements are forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. Actual results may materially differ from those indicated by such forward-looking statements as a result of certain risks, uncertainties and assumptions that are difficult to predict. Among the factors that could cause actual results to differ are the impact of implementation of government regulations and programs affecting our businesses, unforeseen legal judgments, fines or settlements, uncertainty in conditions in the financial and banking markets, general domestic and international economy including more specifically increases in raw material costs, the ability to substitute less expensive alternative raw materials, the heavy construction vehicle market, the ability to continue to successfully implement productivity improvements, increase market share, access new markets, introduce new products, enhance our presence in strategic channels, the successful expansion and automation of manufacturing capabilities and diversification efforts in emerging markets, the ability to continue to achieve cost savings through lean manufacturing, cost reduction activities, and low cost sourcing, effective completion of plant consolidations, successful completion and integration of acquisitions and the other factors discussed in the Annual Report of Standex on Form 10-K for the fiscal year ending June 30, 2013, which is on file with the Securities and Exchange Commission, and any subsequent periodic reports filed by the Company with the Securities and Exchange Commission. In addition, any forward-looking statements represent management's estimates only as of the day made and should not be relied upon as representing management's estimates as of any subsequent date. While the Company may elect to update forward-looking statements at some point in the future, the Company and management specifically disclaim any obligation to do so, even if management's estimates change.
